

PRATICAL GUIDE TO VACCINES FOR FEEDER CALVES AND BREEDING HERDS

Vaccination is an essential way to protect the health of breeding herds and feeder calves.

This chart lists the main vaccines available, their type, their conformity to specialized auction protocols, and the diseases they cover.

This guide is designed to help you choose and compare the vaccines used.

Consult your veterinarian to choose the vaccination program best suited to your farm and ensure optimal protection when breeding your cows or marketing your feeder calves.

	Follow the vaccination protocol		Type of vaccine		Vaccination coverage								
	Foetal protection	Feeder calves	Modified live	Inactivated	IBR	PI3	BRSV	BVD	HS	MH	PM	C	L
Bovilis Vista BVD CFP	X		X					X					
Bovilis Vista 5 CFP	X	X	X		X	X	X	X					
Bovilis Vista 5 VL5 CFP	X	X	X		X	X	X	X				X	X
Bovilis Vista Once CFP	X	X	X		X	X	X	X		X	X		
Bovi-Shield Gold 5		X	X		X	X	X	X					
Bovi-Shield Gold FP5	X	X	X		X	X	X	X
